70/70 TABLE

"The 70/70 Table is a study in geometric forms, identifying the dimensions that make a balanced design. With its simple and understated expression, the 70/70 Table finds its unique form through careful detailing. Here, the slanted plywood edges of the slender table top and edged triangular shapes of its frame make the 70/70 Table a testament to the ideals of Scandinavian design."

Description	The 70/70 Table is designed with a simple expression, paired with subtle, understated details that reveal themselves upon closer inspection. Adding character to the design, the details of the 70/70 Table include the triangular shape of its base for a modern expression and the slanted edges of the table top. Available in a variety of sizes and finishes, the 70/70 Table is an ideal match for any dining area, home office, workplace or hospitality area.
Material	Tabletop in plywood with lacquered oak veneer surface, Black and Grey version in plywood with linoleum surface, White and Sand version in plywood with laminate surface (HPL). Solid Oak and Solid Smoked Oak tabletop in FSC™ (FSC-CO28824) certified oak. Frame in powder coated aluminum.
Cleaning & Care	<p>Laminate & Linoleum: Clean the table with a damp cloth. If necessary, only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. For linoleum versions, linoleum care is recommended for optimum saturation of the natural material 2-3 times a year. It is recommended to clean linoleum versions with a damp cloth and a pH neutral cleaner and wipe dry to remove any residues.</p> <p>Solid Oak & Solid Smoked Oak: Solid Oak and Solid Smoked Oak: Clean often and carefully with a soft and dry cloth following the grain pattern. Periodically, clean with moist cloth. For long term care, it is recommended that the tabletop is treated 2-3 times a year with special oak wood oil* on both top and bottom of tabletop that assists with making the wood resistant to stains and fluids. The wood should not be exposed to excessive humidity, heat or direct sun light.</p> <p>*Please contact customer-care@muuto.com for recommendations on specific oak wood oils available in your region.</p> <p>Oak Veneer: Clean the table with a damp cloth. If necessary, only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away.</p>

AIRY COFFEE TABLE

"The idea behind Airy was to create a side table that did not scream but still was not afraid to speak. The result is a table series that masters the fine balance between being light and airy, and at the same time having plenty of personality and individuality. With this combination, Airy gets a multi-functionality that makes the side tables suitable for every kind of interior."

AROUND COFFEE TABLE

“I wanted to create a modernly timeless perspective on the archetypal Scandinavian coffee table, taking inspiration from memories of visiting my grandparents’ house as a child and being nervous about spilling something from their coffee table and onto the beautiful carpets. This gave me the idea for Around Coffee Table with its subtle veneer frame. The design has an at once subtle and significant presence through its geometric legs, characterful frame and friendly opening for a forward-thinking take on Scandinavian craftsmanship.”

Description	The Around Coffee Table brings a new perspective to its typology through the characterful wooden veneer frame that runs along the edge of the table, echoing the ideas of Scandinavian design. With its round shape and multiple sizes, the Around Coffee Table can be used in a multitude of settings, on its own or in groups, in any living room, lounge setting, lobby area or hotel room.
Material	Oak & Ash versions are made from oak or ash plywood and solid oak or ash legs. Colored versions are made from MDF or ash plywood and solid ash legs. The strong water-based lacquer surface protects the tables from wear and tear of everyday use.

BASE TABLE SERIES

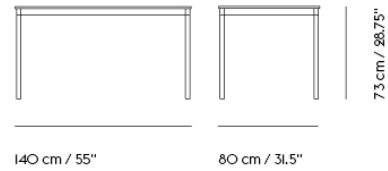

I wanted the table to have its own character but not be imposing. The design aim was to reduce the table to its archetypal form. The functional simplicity of Base is supported by behind-the-scenes technology to create a slim, lightweight and strong table. At the same time, Base is friendly and welcoming in the way it looks.

COMPILE SHELVING SYSTEM

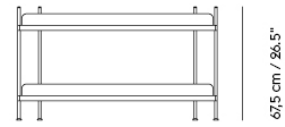

"Storage is important because it is so universal: everybody needs good solutions. The inspiration for the Compile Shelving System was indeed the everyday storage situation. The design, with its logical construction, parallels to a certain degree an unpretentious Scandinavian lifestyle—one shelf represents one building unit while the length of the tube defines the shelf height. In this simple way one can assemble practical formations that fit individual needs—Compile should reflect and accommodate the life of which it is part."

CONNECT SOFT MODULAR SOFA

"The Connect Soft Modular Sofa is a seating system, rooted in the idea of uncovering the perfect proportional connections between the different components within a sofa. Designed with a deep, low seat, loose upholstery and an inherently soft filling, the Connect Soft Modular Sofa is at once elegant and contemporary—a sentiment that is echoed through its small feet underneath for a hovering expression while its box stitching infuse it with a modern touch. The design adds a geometric and elegant perspective to the archetypal modular sofa, paired with an ultra-soft comfort for hours of lounging."

The Connect Soft Modular Sofa brings together elegantly slender proportions with a deeply inviting and ultra-soft comfort. Being at the heart of any space, its modularity allows for its user to tailor the design to their exact taste and space.

Choose between 9 predesigned configurations or create your own choosing from 9 seating modules and optional cushions, following the guidelines below.

Visit planner.muuto.com to create your own configuration online.

Create your own Connect Soft Configuration

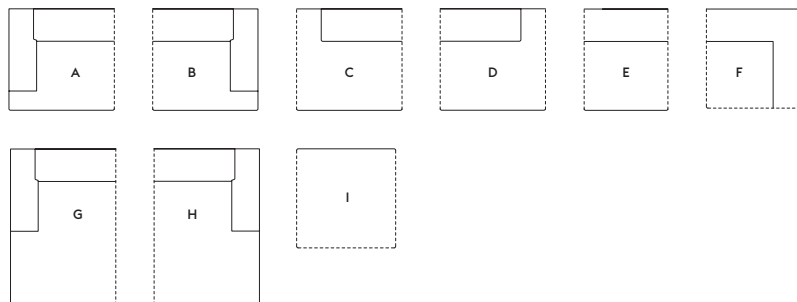

1. SEATING MODULES

Select your desired seating modules.

Add the item numbers of the desired textile separately to your order.

Note

You can only connect seating modules with pre-mounted linking brackets on the sides, illustrated here with dotted lines. Pouf Module I can either be connected to other modules with pre-mounted linking brackets or be used as a freestanding module.

Textile direction

Corner Module F is designed to be used as corner. If used as End Module with armrest, the textile direction can differ. Modules connected on the left side of Corner Module F will have the same textile direction. The textile direction of modules connected on the right side will run into the opposite direction.

2. CUSHIONS

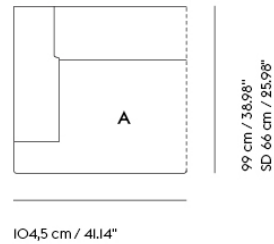

Specify optional cushions in the desired textile for added comfort and a lounging expression.

General note

The total dimensions of the configurations are indicative and can vary due to the inherent softness of the design and depending on how close the modules are placed as well as how many modules that are combined.

COVER CHAIR SERIES

"The Cover Chair Series is born from a desire to create a comfortable and contemporary chair in wood. I aimed for a crisp and vivid expression in the plywood while looking for a solid and grounded look in the frame and base of the design. Years of play and hard work in the making has resulted in a light, yet strong chair design that takes the material of veneer to its extreme."

— Thomas Bentzen

Designed by	Thomas Bentzen / 2013
Environment	Indoor
Country of Production	Armchair & Lounge Chair in Latvia / Bar Stool, Counter Stool & Side Chair in Romania
Assembly Required	No
Description	Referencing the values of honest craftsmanship and Scandinavian materiality, the Cover Chair Series is an elegant perspective on the timeless wooden chair. With its curved backrest and folded covers, the Cover Chair Series explores the possibilities of wooden veneer, paired with a deep comfort, modern expression and base in solid wood. Echoing the seamless appearance of the chair, it features no visible screws for a simple touch. Use the Cover Chair Series in the living room, hallway or bedroom of the home as well as in restaurants, canteens, educational institutions, workplaces and more.
Material	<p>The Cover Chair Series is made from form pressed wood. The wood is folded over the chair's legs and backrest. This technically innovative wood layering helps lock the elements of the chair together. Upholstered seats are with textiles from Kvadrat or Refine Leather.</p> <p>Cover Armchair and Lounge Chair: Oak versions: Water-based lacquer. Oak veneer shell, solid oak legs. Colored versions: Seat and shell is made from ash veneer, while frame and legs are made from solid beech wood.</p> <p>Cover Side Chair: Form-pressed oak veneer shell. Solid oak legs. All parts with water-based lacquer. Stacking Pad in felt.</p> <p>Cover Bar & Counter Stool: Made using FSC™ (FSC-CO28824) certified wood. Oak and Stained version: Form-pressed oak veneer shell. Solid oak legs. All parts with water-based lacquer. Colored version: Form-pressed ash veneer shell. Solid oak legs. All parts with water-based lacquer.</p>
Cleaning & Care	For textile versions, please find cleaning instructions for your chosen textile at kvadrat.dk. For leather versions clean leather with a dry cloth regularly. Treat the leather when needed using only special leather treatment products. For wood versions clean the chair with a damp cloth. If necessary only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away.
Spare Parts	Pre-mounted plastic glides included. Felt and plastic glides can be purchased separately.

DOZE LOUNGE CHAIR & OTTOMAN

"Scandinavia has a long tradition of extensively comfortable lounge chairs; at the heart of our design heritage lies the versatile concept of comfort. As such, the idea of creating a grand lounge chair came very natural to us. The visual references of the Doze Lounge Chair are however derived from the modern and clear lines of the Golden Age in Danish design, while at the same time being informed by some of our favorite designs of the 1970's. To us, the characteristically large and sheltering back that embraces the soft seat creates a combination of the Scandinavian design ethos and the lines of 1970's objects in a way that we find truly refreshing."

Description	The Echo Pouf has a simple, friendly expression that brings comfort and function to any space alongside its light and almost hovering expression through its small legs underneath. The name of the Echo Pouf refers to how the design can be used in symmetric formations or clusters with various sizes and upholsteries, creating visual echoes throughout the space.
Material	The Echo Pouf is made from a wooden frame, high-resilience foam and textile upholstery.

ENFOLD SIDEBOARD

"Enfold Sideboard came from the many factory visits that I do as a designer, prompting me to explore the aesthetic appeal of industrial objects. I wanted to translate this element into modern storage together with an appreciation of the Scandinavian design tradition. The Enfold Sideboard combines the warm touch of oak, referencing the wooden sideboards of the 20th century, with the contemporary expression of its ridged steel front, softening up the cold material and binding it together with the sideboard's oak components. The design is a new perspective on the traditional sideboard with an elegant and simple look, complemented by a unique duality of materials."

Description	The Enfold Sideboard combines industrial materiality with residential references for a new perspective on modern storage. Made from a lacquered steel that gently enfolds its top and bottom in solid oak, the Enfold Sideboard fuses cold and warm materials for a unique expression, paired with the vibrantly modern expression of its ridged steel doors. The design comes in two sizes: one vertical and one horizontal, both with adjustable shelves to either side of its middle—the horizontal sideboard has one shelf to either side of its middle to be placed across five different levels while the vertical sideboard has one shelf to either side of its middle to be placed across three different levels. Both sizes have outlets for cables inside.
Material	Body, shelves and sliding doors in lacquered, bent steel. Top and base in lacquered solid oak.
Cleaning & Care	Clean the sideboard with a damp cloth. If necessary only, use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away.

FIBER CHAIR SERIES

"One of the most difficult and noble disciplines is to design without eccentricity, creating simple, well-functioning and almost ordinary objects that nevertheless have strong identities. We designed the Fiber Chair Family to do just that through a clear sculptural language that refuses to compromise on comfort. It's a chair stripped of all unnecessary layers. The iconic form combines soft, embracing curves with an innovative wood fiber composite, giving the Fiber Chair Family a unique expression and tactile texture."

FIVE POUF

"The Five Pouf explores the possibility and tension of the pentagon shape. The design process was very much about tailoring; the quilted ribs are seemingly wrapped around the shape and enhance the dynamics of the pentagon. The quilting adds a softness to the seat, and the textiles we have chosen are very responsive to the undulating surface of the cover."

IN SITU MODULAR SOFA

"With the In Situ Modular Sofa, we wanted to combine the functions of modularity with the beauty of simple, elegant lines and a deep comfort. We sketched a profile that runs along the seat and back of the sofa to subtly hide the visual elements of modularity, giving it a unique character while bringing the individual modules together for a complete appearance. This is paired with grand, sculptural lines and the inherent comfort of its soft seat. The In Situ Modular Sofa combines the grandeur of traditional Italian sofas with the refined simplicity of Scandinavian design, making it the heart of any space."

With the In Situ Modular Sofa, you can choose between any of the 30 predesigned configurations on the following pages or create your own configuration, following the guidelines below.

Visit planner.muuto.com to create your own configuration online.

Create your own In Situ Configuration

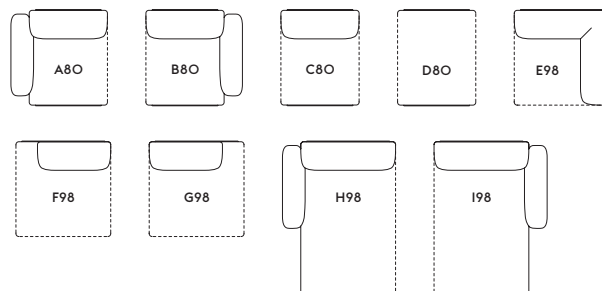

1. SEATING MODULES

Find the seating modules of your desired configuration and add the item numbers of the desired textile separately to your order.

You can only connect modules to the open sides and end of the modules, illustrated here with dotted lines.

An In Situ configuration must always have one of the following seating modules at each end: Armrest Module (A80, B80, H98 or I98), Ottoman Module (D80) or Open-Ended Module (F98 or G98).

The Ottoman Module (D80) can only be used in extension of Open-Ended Modules (F98 or G98) or as the only free-standing I-Seater configuration possible to build.

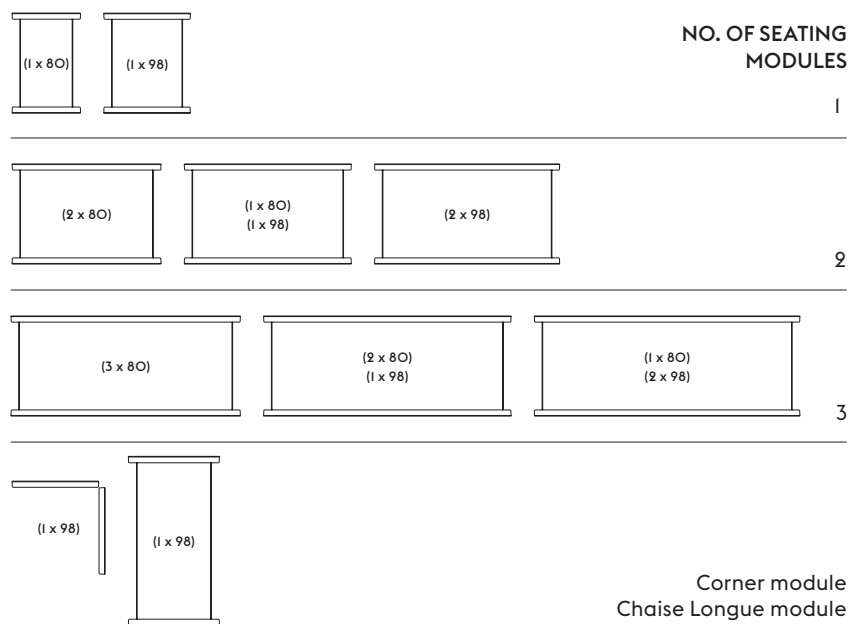

2. FRAME SECTIONS

Choose the frame section(s) that match the seating modules of the desired configuration (I/O frame sections to choose from in total). We recommend using as few frame sections as possible when creating your own configuration for a clean appearance.

A Frame Corner Section must always be supported by sections in the two open directions.

A configuration with chaise longue modules H98 or I98 must be created using at least 2 sections in total.

3. LINKING BRACKETS

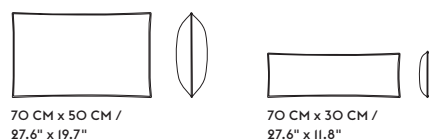

Identify the amount of linking brackets required to connect the modules in your configuration, following the guidelines below. **Linking brackets must always be used when joining together frame sections.**

Linking brackets must always be mounted on the adjacent sections that face the corner section.

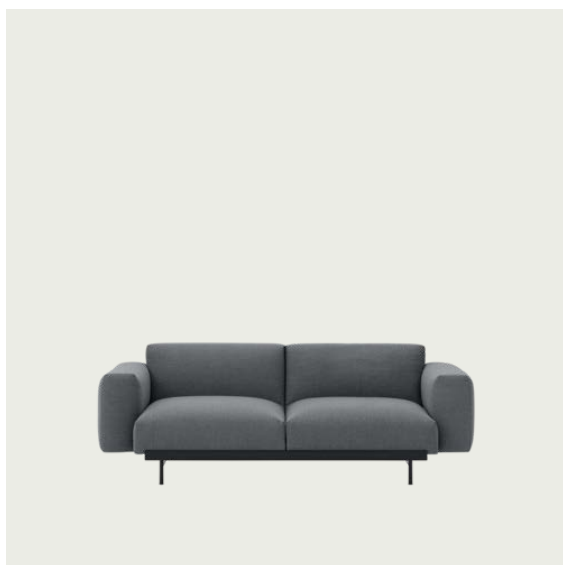

4. CUSHIONS

HALVES SIDE TABLE

The Halves table is youthful and informal in its aesthetics, but represents more traditional values of durability and practicality simultaneously. We were inspired by the unique properties of the solid surface material which led to the specific exploration of form with an emphasis on planes and intersections. We further wanted to pursue a form that was practical, yet somewhat abstract, and therefore played with asymmetry: Halves presents different aspects of itself over time, depending on the position of the observer.

Preassembled	Yes
Description	Made from a unique combination of acrylic and stone, the Halves Side Table is a sculptural display table that is a fit for any setting; next to the bed or sofa, in a hallway or an office. With its intersecting planes and contemporary shapes, the expression of the Halves Side Tables change according to the perception of its viewer.
Material	Made from large casted sheets of acrylic stone composite that are cut into shapes and welded together. Lastly, the surfaces are grinded and polished giving the side table its soft feel and seamless joints.
Cleaning & Care	Please use a wet cloth to clean surface if coffee, tea or other liquids are spilled on the table surface. If the stain cannot be removed with a wet cloth, we suggest using a small amount of normal detergent together with the wet cloth. If the stain is not immediately removed upon having been made and unable to remove after, we suggest using #800—1200 grit sanding paper to manually polish the surface.

LINEAR STEEL SERIES

"The Linear Steel Series was designed from the idea of presenting durable materials in a sophisticated and understated expression for outdoor use with its form language inspired by the notion of meetings—the meetings of lines, the meetings of shapes and the meetings of materials. The design is defined by its straight lines for a contemporary yet timeless aesthetic through the details of its folded edges, half-circular intersecting legs and small spacing for easy outflow of water. It is through these subtle elements that the Linear Steel Series translates the values of elegance, longevity and functionality into modern outdoor furniture."

— Thomas Bentzen

Designed by	Thomas Bentzen / 2019
Environment	Outdoor
Country of Production	Table & Bench in Sweden / Chair & Café Table in Italy / Cover in China / Seatpad in Vietnam
Assembly Required	Yes
Description	The Linear Steel Series brings new perspectives to modern outdoor furniture through its straight lines alongside the folded edges, half-circular intersecting legs and small spacing for easy removal of water. Kept visually clean for long-lasting aesthetics, the Linear Steel Series finds its distinct character through subtle detailing and a simple expression, allowing for it to complement any outdoor setting.
Material	Frame and top are made from welded steel with a weather-resistant deep matt powder coated finish. The top is hot-dip galvanized while legs are aluzinc treated, making them suitable for outdoor use. Legs come with plastic glides. Cover in PVC coated Polyester. Seatpad in textile upholstered HR foam with anti-slip underneath and rope for attachment.
Cleaning & Care	When cared for properly, the Linear Steel Series is designed to last. Follow these simple rules to care for your design in the best possible way: Clean with a damp cloth after use. If necessary, use a mild detergent or dish-washing liquid, not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquids, grease etc. should be removed straight away. Lacquered surfaces can get scratches and chips if hit by other hard objects. Be careful around the design when handling other hard objects, such as tableware and porcelain. Never stack benches and tables on top of each other as hitting the surfaces against each other will cause lacquer to chip and scratch. In case of minor scratches in the paint, Muuto recommends that you contact your local DIY store, and get advice on which outdoor paint product they can recommend, to cover the minor scratches. Color codes: Burnt orange: RAL 8001 Green: RAL 6012 Black: RAL 7021 White: RAL 1013

LINEAR WOOD SERIES

"The Linear Wood Series was designed from the idea of bringing the warm and friendly sentiment of wood into a timeless, understated shape with its form language inspired by the notion of meetings—the meetings of lines and shapes. The design is defined by its straight lines for a contemporary yet honest aesthetic through the details of its thinly elegant overhang and half-circular intersecting legs. It is through these subtle elements that the Linear Wood Series translates the values of elegance, longevity and functionality into modern Scandinavian design."

Description	The Linear System Series brings a new perspective to the evolving needs of modern spaces. The Linear System Table is a simple yet refined table with subtle details and references to the Scandinavian design heritage. Its legs are cut into half-circles and joined with the table for a light expression while the slender overhang at both ends of the table makes for a refined expression. The Linear System Table is available as a freestanding table to be used on its own, as predesigned configurations or as Middle and End Modules that can be configured to the exact needs of your space. Screens and trays are available in various sizes and are mounted into the ridge that runs down the tabletop, allowing for them to be shuffled around as functional and aesthetic needs evolve. LOFT CHAIR SERIES

“The Loft Chair Series combines the complementing opposites of robustness and elegance through materials—its wooden seat and metal frame—with a soft, industrial appeal. The design features an archetypical look for a feeling of familiarity while the subtle details, such as its sturdy back legs, gives it a unique expression. The design fits seamlessly into any spatial context while providing maximum comfort to its user.”

MINI STACKED STORAGE SYSTEM

"The nature of design can be split into two parts: the specific and the generic. One is having a unique expression and the other is serving an obvious function. I found that shelving systems often only had one of the two and from there grew the idea for Mini Stacked. The modules have been designed from the generic measures of objects to store and display while allowing for them to be combined in any way you'd like. Mini Stacked can be placed in a vibrant configuration that plays with the varying sizes or in a simple grid, both serving its purpose of efficient yet unique wall storage."

Description	The Mini Stacked Storage System is a wall-hanging alternative to the Stacked Storage System with a lighter expression and smaller dimensions, available across various sizes and colors. The Mini Stacked Storage System is an elegantly functional match for smaller spaces such as kitchens, hallways and bedrooms as well as workplace and hospitality settings.
Material	Colored modules: Every side is cut out of MDF, then assembled, glued together and painted with three layers of PU lacquer. Oak modules: Every side is cut out of MDF with oak veneer, then assembled and glued together.

NERD CHAIR SERIES

"The Nerd Chair Series takes a playful approach to the archetypical wooden chair through its innovative integration of seat and back, adding to the design's unique expression. While its details are contemporary and unique in their own way, the overall expression of the design ties in with the honest values of Scandinavian design. The Nerd Chair Series brings new perspectives to Scandinavian design by combining the traditional material of wood with a simple yet eccentric design language, making for a timeless chair that adds character to any space."

Description	The Nerd Chair Series is designed with a playfully contemporary expression, joined by its wooden Scandinavian materiality. The seamless integration of its back and seat makes for a characterful detail alongside the curved edges of its seat. The series includes a Chair, a Bar Stool and a Counter Stool.
Material	The back and seat are made from form-pressed veneer alongside legs in solid wood, both with a water-based lacquer.
Cleaning & Care	Clean on a regular basis using a damp and clean cloth. Remove stains using a mild mixture of water and detergent. Avoid contact with sharp objects as these can leave scratches in the wood and lacquer.
Spare Parts	Plastic glides included. Option of pre-mounted felt glides upon request for orders above 50 chairs.
Made-To-Order	Counter and Bar Stool: steel foot protect is available as made-to-order.

OUTLINE SOFA SERIES

"With the Outline Sofa Family, we wanted to create a visually light and elegant design with lots of comfort, translating aspects of modern architecture into the design through juxtaposing elements. Outline is created with slim proportions for a simple and elegant look, complemented by its generous seat and slender legs. There's a calm serenity about the Outline Sofa Family, having a soft and deep seat with clean lines and a strong architectural presence, brought forth by its overlapping forms that bring a refined touch to the expression of the design."

— Anderssen & Voll

Designed by	Anderssen & Voll / 2016
Environment	Indoor
Country of Production	Lithuania or Slovakia
Assembly Required	Yes – Mount legs. Please note that the Highback Sofa 1-Seater, 2-Seater, 3-Seater, Work and Panel are not preassembled.
Description	The Outline Sofa Family adds new perspectives to the classic Scandinavian design sofas of the 1960's, marrying the ideals of simplicity and function into one. With the design taking its name from its strong outline of a sofa, the Outline Sofa Family is clean and elegant on the outside with a deep seat and soft cushioning on its inside. The Outline Sofa Family has an expression that is at once elegant yet timeless, elevated by its lines referencing architectural shapes alongside its curved armrests, giving the design a distinct appearance across various sizes and variants.
Material	Powder coated or polished aluminum legs. Wood and steel construction. Cold foam filling.
Cleaning & Care	Remove non-greasy stains by carefully dabbing with a lint-free cloth wrung out in clean, warm water. If necessary, clean by dabbing with soapy water. Visit Kvadrat.com for further information on cleaning textiles. For leather versions, clean leather with a dry cloth regularly. Treat the leather when needed using only special leather treatment products.

OSLO SERIES

"With the Oslo Series, we wanted to create a design that had a light and airy appearance with extensive comfort. Its smooth, embracing curves make it a both inviting and sculptural design while the slender legs give it an elevated and refined look. The Oslo Series creates a new perspective with its rounded softness and gentle seat—a friendly design for any setting of the modern home, restaurant or workplace."

SOFT SIDE TABLE

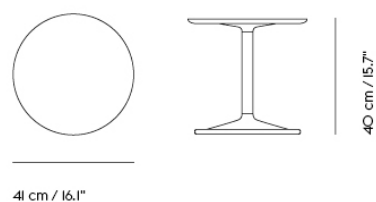

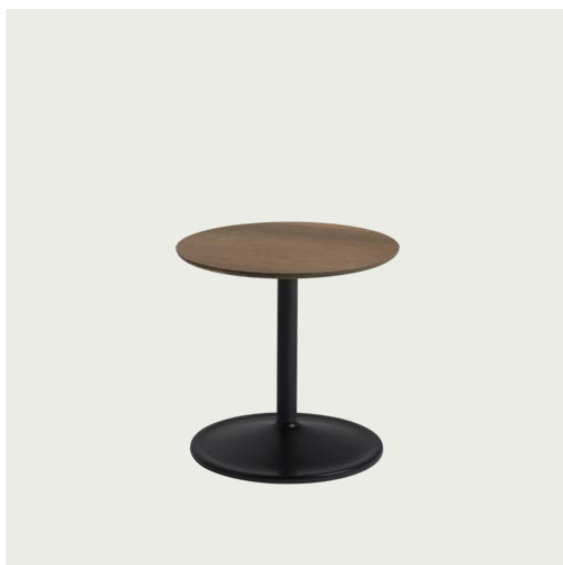

"I wanted to create something that was subtle yet characterful with the Soft Side Table, making a world of softened surfaces and understated functionalities come together into one. Referencing the archetypal center table, the Soft Side Table has a quiet presence that allows for it to complement any atmosphere while echoing a modern elegance through its refined lines and slender form."

Description	The Soft Side Table is both subtle yet characterful with its softened surfaces and understated functionalities. Comes in a variety of sizes and finishes that will complement any atmosphere and space.
Material	The Soft Side Table's base is made from powder coated, die-casted aluminum and comes with pre-mounted glides. Table top in MDF with laminate or Linoleum surface, in Solid Oak or in Smoked Oak. Laminate, Solid Oak and Smoked Oak table tops are made using FSC™ (FSC-CO28824) certified wood
Cleaning & Care	<p>Plastic or Powder coated surfaces: Clean with a moist cloth. If necessary use a little dish soap on the cloth.</p> <p>Laminate & Linoleum: Clean the table with a damp cloth. If necessary, only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. For linoleum versions, linoleum care is recommended for optimum saturation of the natural material 2-3 times a year. It is recommended to clean linoleum versions with a damp cloth and a pH neutral cleaner and wipe dry to remove any residues.</p> <p>Solid Oak & Solid Smoked Oak: Solid Oak and Solid Smoked Oak: Upon receiving your table, we recommend that tabletop and bottom is treated with special oak wood oil, improving its resistance to stains and fluids. We also recommend that you continue caring for the product by repeating this treatment 2-3 times a year. For products in Solid Oak, we recommend using a tabletop oil with a small amount of white pigment, suitable for food applications*. For products in Smoked Oak, we recommend using a smoked tabletop oil, suitable for food applications*. Clean tabletop often and carefully with a soft and dry cloth following the wood's grain patterns. The product should not be exposed to excessive humidity, heat, or direct sunlight.</p> <p>*Please contact customercare@muuto.com for recommendations on specific oak wood oils available in your region.</p>

STACKED STORAGE SYSTEM

"Design should always have a characteristic expression while serving an obvious function. I found that shelving systems often only fulfilled one of the two and from there grew the idea for Stacked. It prompted me to design a system of modules in three sizes that can be arranged and rearranged in any way you'd like, making for a unique storage solution. Stacked is a simple and efficient storage system that can be personalized to the needs of your home."

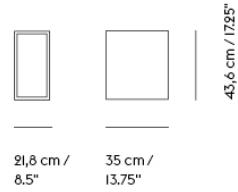

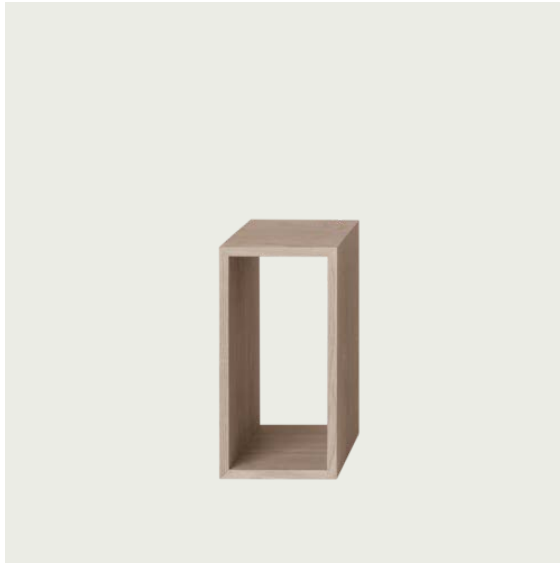

— Julien De Smedt

Description	Being both versatile and functional, the Stacked Storage System can be arranged and rearranged for the exact configuration that you'd like, whether it be as shelving setups, sideboards, bookcases or side table. The design can easily be refreshed by playing around with the space between the modules or mounting the modules with backboard directly onto the wall. Visit our Product Planner to explore the possible configurations: planner.muuto.com/stacked
Material	Colored versions: Every side is cut out of MDF, then assembled, glued together and painted with three layers of PU lacquer. Oak versions: Every side is cut out of MDF with oak veneer, then assembled and glued together.
Cleaning & Care	Remove dust from shelves with a soft cloth or remove abrasive dust particles. When necessary clean with moist cloth. For wood veneer finishes, dry immediately with a soft cloth following wood grains. The wood should not be subjected to excessive heat, direct sunlight or humidity.
Additional Product Information	Max. weight per module: 25 kg/ 55 lbs (free-standing) and 12 kg /26.5 lbs (wall-mounted). Max. total weight: 300 kg/ 660 lbs when evenly distributed on the Podium. Max. total height: 285 cm/ 112.25" and max. 6 modules on top of one another. Modules must always be connected with Clips or be mounted to a wall to ensure stability of the shelving system. Follow assembly guideline and see our configuration guidelines on: planner.muuto.com
Spareparts	Each Stacked module comes with two color matching clips, while Oak comes with Light Grey clips. Extra clips available as Set of 5 in the colors White, Light Grey, Grey, Dusty Green and Midnight Blue.

STILL CAFÉ TABLE

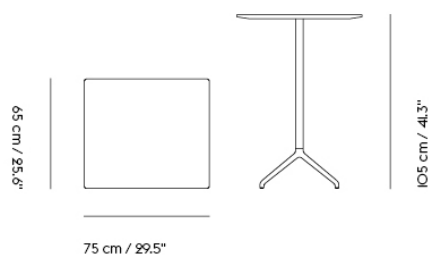

"Our idea for the Still Café Table was to create a design with an apparent function that would fit intuitively into any space without making much visual noise. With its elegant four-legged base across various heights, the design is stripped to its essentials, complemented by the angled edges of its table top."

Description	The Still Café Table is designed with a clean expression and apparent function on a four legged base, complemented by the angled edges of its table top. Available across various heights with either round or square table top, the Still Café Table is an elegant match for any kitchen area, café, restaurant, bar, conference or office setting. The higher versions also function as a hot-desk in workplaces and open areas.
Material	Table top is made from MDF with a nanolaminate finish and lacquered edges. Base is made from die-cast aluminum. The mounting plate and tube is in powder coated steel.
Cleaning & Care	<p>Powder coated surfaces: Clean with a moist cloth. If necessary use a little dish soap on the cloth.</p> <p>Nanolaminate: Clean the table with a damp cloth. If necessary only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. Treat the surface with a melamine sponge, available in hardware stores, to reduce minor scratches.</p> <p>Linoleum: Clean the table with a damp cloth. If necessary use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquids, grease etc. should be removed straight away. For linoleum versions it is recommended to use a linoleum polish on the surface when needed.</p>

VISU CHAIR SERIES

"The idea for the Visu Chair Family was to create an elegantly simple interpretation of the archetypal plywood chair. I wanted for the design to have a subdued and timeless character that would add feelings of modern familiarity to any room together with a comfortable seat in form-pressed veneer. Designing the chair as a family that were all aesthetically linked yet could be used for different functions was a study in adapting a design to its surroundings and a process that lasted nearly two years. The Visu Chair Family is a new perspective on the traditional wooden chair, echoing the ideas of Scandinavian design together with a modern expression."

BEAM TABLE LAMP

"The idea for the Beam Table Lamp came while renovating my childhood home. I had made a shelf to use as divider between the hallway and living room and needed a lamp that could at once throw light out into the living room and down the hallway. The Beam Table Lamp mimics a single ray of light that travels through a round tube with its dimmer allowing the user to change the volume of light omitted from both ends of the cylinder shape. Tweak the design to your personal needs through its rotating base and sleek body of anodized aluminum, whether it be as direct lighting or for an ambient glow. With the Beam Table Lamp, you can alter the volume of light omitted, change its direction by the turn of its base and place it on any shelf, table or windowsill for a new perspective on modern lighting."

CONTROL TABLE LAMP

"The Control Table Lamp is a unique and playful lamp with references to hi-fi and industrial machinery. The light and dimmer is controlled by a switch, referencing volume controls, and is an inviting and simple way of interacting with the user. While designing the lamp, we were inspired by the idea of displaying the different lamp components on a serving plate—almost as a still life. It was a pragmatic approach to making a lamp by the simplest means, a reduced design beyond reduction."

FLUID PENDANT LAMP

"We wanted to give the lamp a form with a certain softness, towards a more natural language and further removed from pure geometry. Fascinated by the way that surface tension governs the curvature of a resting water droplet, we have tried to capture its essence. The subtle irregularity of the Fluid Pendant Lamp means that their silhouette gently changes depending upon the viewing angle. It also brings a greater light intensity to the lamp's underside—just where you need it."

FOCUS TABLE LAMP

"The Focus Table Lamp is an everyday object with a sculptural appeal and an apparent function: it is a lamp and a pedestal where your favorite small objects may be placed and highlighted. Working with the appearance and the delicate dimensions, I tried to give the lamp a unique personality characterized by an embracing and protective nature. The focus is on the pedestal and the object which is placed on it. Therefore, all components are fixed in position. Personally, the pedestal, with a cone of ambient light, solved my problem of misplacing my keys. Now I always know where they are."

RIME PENDANT LAMP

"Designing simple things is often one of the hardest things to do. We wanted to create a simple lamp with a glass shape, giving it a soft expression while making its top and pendant tube as subtle as possible. We were inspired by the shape of acorns for the gentle lines of the pendant while hinting towards the shaded expression of ice and rime for the glass of the design, allowing for the light to shine slightly through with a refined touch. The Rime Pendant Lamp brings a timeless yet modern perspective to the archetypal light through its translucent shade and graphic form."

ATTACH COAT HOOK

"The Attach Coat Hook arose from an interest in the meeting of two elementary shapes: a cylinder and a rectangular box. From there, the design was created by combining a simple wood cylinder with an anodized aluminum form, joining together industrial and natural materiality. With its contrasting elements, the Attach Coat Hook brings a refined yet sturdy perspective to the modern coat hook."

AVAIL COAT RACK

“The emphasis for the Avail Coat Rack was not necessarily to create something different but rather something better—a design that will last for years and give satisfaction in daily life. Through its hooks that can be continuously rearranged while adding notes of color to the warm touch of its oak surface, the Avail Coat Rack evolves with our changing daily needs and reflects our perspectives with its small plateau upon which smaller objects can be placed.”

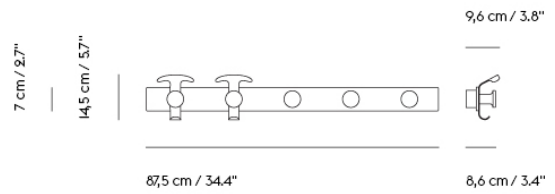

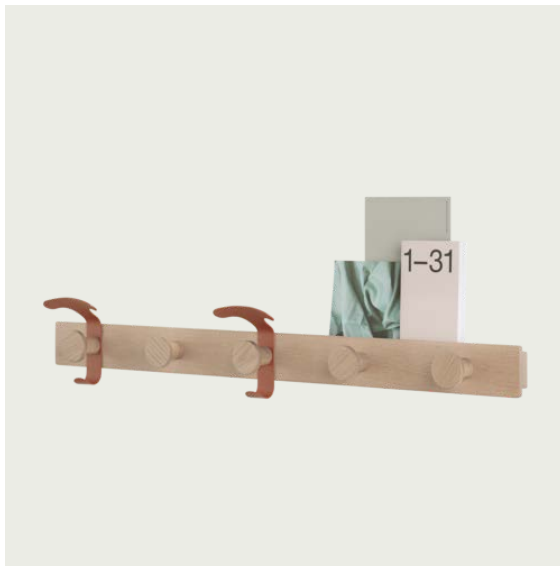

— Sam Hect & Kim Collin

Description	Designed with Scandinavian materiality at its heart, the Avail Coat Rack brings the ideas of simplicity and functionality into the modern home. COIL COAT RACK

"Design often finds its function first and its form second. With the Coil Coat Rack, this process was reversed. While I was modeling some ideas by forming paper into different shapes, I realized that the curling form of a rolled-up paper could be combined with hooks and be ideal for a coat rack. With its soft lines and sliding hooks that can be adjusted to one's individual preferences, the Coil Coat Rack is a functionally inviting perspective on the archetypal coat rack."

— Lars Tornøe

Contry of Production	China
Description	The Coil Coat Rack finds its new perspective through its coil-shaped form along with its hooks that are brought into play for a simple yet characterful element that breathes function into the design. The design allows for the user to buy additional hooks if needed to make the Coil Coat Rack uniquely theirs. The shape of the design is inspired by the curled-up form of rolled paper.

OPEN CANDELABRA

"The design is based on a simple idea; to create a new take on the iconic multifaceted candelabra—but with as little volume as possible. The design process was all about creating a slim, steady and harmonic candleholder with a timeless, effortless look—and the result is a simple, almost two-dimensional object that fits perfectly on a large table, as well as in a slim windowsill. The rounded features and open form add to the warmth of a cosy candlelight atmosphere. Open Candelabra is reduced in terms of both design and use of material, but still it brings out the light in the most beautiful way."

— Jens Fager

Description	A geometric, Scandinavian take on the classic Victorian candlestick, the Float's jutting tray can be used to hold a candle or to store your essential items. The contemporary object comes in five colors, subtle as playful, making it an excellent bedside or coffee table accessory.
Material	High pressure casting in aluminum and powder coated with heat resistant PU lacquer. Small silicone feet are attached underneath the candlestick to protect table tops or other surfaces from excessive heat, should the candle burn down and heat up the aluminum element.
Cleaning & Care	Clean in hot water, and dry with clean cloth. Not dishwasher approved.

FOLDED SHELVES

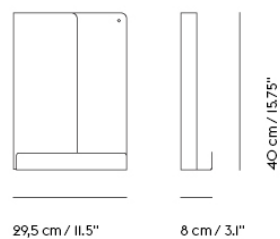

"Inspired by the shadow-play of layers, Folded is based on a seemingly simple bending technique of a single sheet of metal to create pockets which hold and separate your items. Featuring a subtle bolt and hooks for hanging objects, it is a versatile wall mount that can be used in both a practical and a decorative manner—suitable for organizing anything from mail to books, perfumes or spices, or just displaying your favorite belongings, in the hallway, bathroom, bedroom or kitchen."

FRAMED MIRROR

"We wanted to create a mirror that was more than merely a reflective surface. Framed is a new perspective to the classic framed mirror; it is a decorative design piece that leads your thoughts to installation art. It adds not only the functionality of a mirror to your home, but with its depth, organic shape and tone-in-tone color, it is almost perceived as an art object on the wall. The Framed Mirror can hang beautifully on your walls alone or combined with other sizes and colors."

— Anderssen & Voll

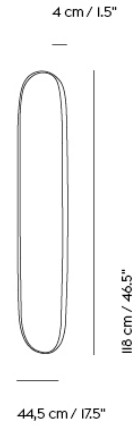

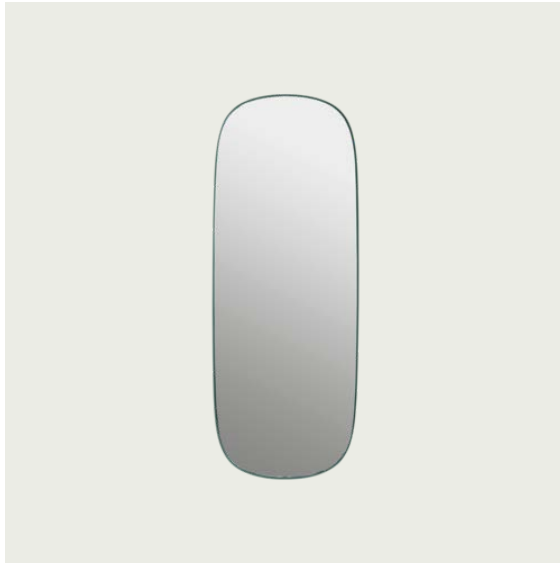

Designed by	Anderssen & Voll / 2016
Environment	Indoor
Country of Production	Vietnam
Description	Made from powder coated steel frames with colored mirror glass, the Framed Mirror is a gently artistic interpretation of the archetypal mirror. Though still functioning as reflecting glass, the colors, shapes and its ability to be arranged in groups gives the mirror a distinct character.
Material	A steel plate is worked through three rounds to shape the mirror's frame. The surface is then powder lacquered using a highly durable acrylic lacquer. Lastly, mirror glass is gently installed, to create the little gap between the mirror's frame and mirror glass.
Cleaning & Care	Clean mirror glass using a mild glass spray and a soft dry cloth.

GROOVE TRIVET

"Trivets are normally stowed away when not in use, yet I wanted to create a beautiful object, which can add to the atmosphere and bear being displayed. The linear grooves in the marble give the trivets a graphic expression and serves as a nice contrast to the natural structures and patterns in the marble. Leave the Groove Trivets on the table even when not in use and let them add character to your interior."

— Hallgeir Homstvedt

Designed by	Hallgeir Homstvedt / 2014
Environment	Indoor
Country of Production	China
Description	When used as a trivet for hot or cold items, the carved trenches of the Groove Trivet allows air to flow through, leaving the table underneath it undamaged. Though a functional object, the Groove Trivet can also be used as a decorative piece, whether it be as a tray, stand, or on its own, adding texture to any room. Visual variations of the marble render each piece entirely unique; the trivet is available in two sizes and three colors.
Material	Raw solid marble is cut, shaped and the surface is oiled.
Cleaning & Care	Hand wash only.

KINK VASE

"My starting point for the Kink Vase was an exploration of how new forms could be created through the digital manipulation of simple shapes. The design combines this appreciation of modern technology with traditional ceramic craft, resulting in a piece that is both contemporary and sculptural. The graphic and playful appearance of the Kink Vase—combined with its double opening, which suggests a new way to arrange flowers infuses its surroundings with joy."

— Earnest Studio

Designed by	Earnest Studio / 2018
Environment	Indoor
Country of Production	China
Description	The Kink Vase brings a contemporary form to the archetypal flower vase through a combination of traditional craftsmanship and playful design language. With its double opening, the Kink Vase adds a sculptural sentiment to the room, even when not in use. The design is made in porcelain that has been glazed on the inside for a refined touch.
Material	Pigmented porcelain. Glazed on the inside and raw on the outside. Small variations in the surface and color of the object are a natural and unique trait of the material.
Cleaning & Care	Hand wash only with water or soapy water. The outside of the Kink Vase is raw and should not be cleaned using any object or cloth that can scratch its surface. Only use a wash cloth. Do not use brushes of any kind. Note that vigorous cleaning can damage the finish of the vase over time. Never use chlorine bleach products as it will damage the vase.

PEBBLE RUG

"Pebble Rug is inspired by the sensuous feeling of a pebbled beach with its diverse and tactile surface, inviting you to take off your shoes and walk across it barefooted. With a handwoven structure that references fashion textiles, the Pebble Rug plays with the contrasting materials of its soft, woolen loops, sitting atop a sturdy canvas base in cooling jute yarn. Pebble Rug brings a new perspective to any space through its woolen loops, popping up from the ground like sprouts in a bed of moss, joined by the distinct woven texture of its surface."

Description	Pebble Rug has a diverse and tactile surface, inspired by the sensuous feeling of walking across a pebbled beach. With a handwoven structure, Pebble Rug contrasts the materials of its soft, woolen loops with its sturdy canvas base in a cooling jute yarn. Pebble Rug has a distinct and modern woven texture for any home, hospitality setting, lobby, hotel space or co working area.
Material	<p>Pebble Rug is hand-woven from 60% New Zealand wool and 40% jute.</p> <p>The base of the Pebble Rug is made in jute. Being a plant-based material, the color of jute will vary according to its place of origin, harvest, weather conditions and more. This means that the Pebble Rug can have slight color variations from one rug to the other as a result of the inherent characteristics of jute, enhancing the natural sentiment of the Pebble Rug.</p> <p>Please note that all sizes of the Pebble Rug have a sizing toleration of + / - 2%, meaning that the dimensions of the rug can differ by a maximum of 2%. The rug comes with a canvas backing pasted with synthetic latex which ensures that the rug lays smoothly on the floor.</p>
Cleaning & Care	For general care of the rug, we recommend gentle vacuum cleaning on a regular basis. For cleaning of stains or spots, we recommend professional dry cleaning. Avoid cleaning with water, as this will damage the product.

PLATFORM TRAY

"With the Platform Tray, we wanted to create a design that had duality at its heart, incorporating the ideas of Scandinavian design by involving functionality across different levels: It can sit on a table surface to hold your favorite objects, raising them up on a platform, or it can be picked up and used as a tray for moving elements from one room to the other. This collision of functions—a small table and a small tray—creates room for dynamic contexts as well as still life settings. It is also repeated in the tray's materials: Molded plastic is shared with veneered wood, allowing for the Platform Tray to complement multiple atmospheres."

— Sam Hecht & Kim Colin

Description	The Platform Tray fuses the function of Scandinavian design with Japanese artisanry to form a stackable tray with a multitude of uses.

RAISE CARAFE & GLASS

"It was focal to us that the Raise Carafe & Glass brought a subtle yet characterful ethos to the traditional craft of mouth-blown glass, adding a lightly elegant sentiment in daily life. After working through different ideas and sketches, we were inspired by the generic shapes of bottles and glasses in modernist still life paintings and felt that their silhouettes struck the balance of being at once timeless yet bursting with character. In essence, the Raise Carafe & Glass find their identity through their organic lines, encouraging the pieces to be raised when with friends, family and in everyday life."

— Broberg & Ridderstråle

Description	With their shapes inspired by modernist still life paintings yet interpreted in contemporary shapes and colors, the Raise Carafe & Glass have an inviting expression that encourages interaction when in use. With the slight raise of its foot, the glass has an elegant look while hinting its user to raise the glass up to a toast when with friends and family. Use the different colors together for a unique and playful table setting.
Material	Mouth-blown glass
Cleaning & Care	To care for and prolong the life of the Raise Carafe & Glass, we recommend hand-wash as this is the gentlest way of cleaning them. The Raise Carafe & Glass are dishwasher safe, but over time, this will affect the glass clearness which can be avoided by washing them by hand.

In dishwasher, use a standard program, 60°C

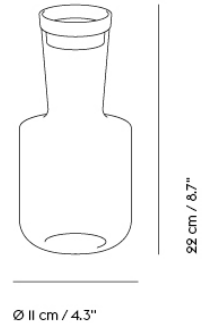

Due to the glassware's handmade nature that leads to varying weight and thickness of each piece, we do not recommend stacking more than 4 glasses on top of each other.

RIDGE VASE

"The idea for the Ridge Vase came while traveling through different cities with a vase in mind, searching for details that had an architectural feel. Upon returning to our studio in Finland, we began sketching by hand and making mock-ups in paper and ceramics. With its vertical lines and unique shape, inspired by a doorway in Paris, the Ridge Vase presents a new way to place flowers through a modern expression along with a sculptural character when not in use. The Ridge Vase manipulates the oval form through its refined dent while adding the function of a small handle to use when moving the vase from one room to another."

— Studio Kaksikko

Description	The Ridge Vase presents a new way to display flowers through its sculptural expression along with an artful character when not in use. The design features added functionality through its refined dent, allowing flowers to stand upright while also working as a subtle handle when moving the vase from one room to another.
Material	The Terracotta version is made from terracotta. The Off-White version is made from earthenware. Both are glazed on the inside and raw on the outside.
Cleaning & Care	The Ridge Vase's outer is untreated with a raw surface. When cleaning the Ridge Vase, we suggest that all usage of cleaning tools, such as a scrub sponge, that can get stuck in the rough surface is avoided. If the outer of your Ridge Vase needs additional cleaning, we recommend using an uncolored brush, such as a dish or nail brush, dipped in bit of warm water. Not dishwasher approved.

VARJO RUG

"The idea was to create a geometric rug with multiple layers and dimensions. I wanted to give the first layer an easy understandable language and balanced color scheme. When you go one layer deeper a dynamic herringbone pattern arises and brings a new dimension and a surprising twist to the rug. Varjo is Finnish for shadow, which translates to the shadow effects that are created between the layers, as the darkest color block almost rises above the others, creating a three-dimensional expression."

— Tina Ratzer

Environment	Indoor
Country of Production	India
Description	With its name meaning “shadows” in Finnish, the Varjo Rug hints towards how the woven texture creates a sense of shadow and light within the weave. With a unique pattern and discreet color-blocking, the Varjo Rug is hand-woven from 100% New Zealand wool.
Material	100% New Zealand lambswool. The wool is dyed and the rugs are woven by hand.
Cleaning & Care	For regular cleaning, vacuum the rugs. Clean stains instantly with sparkling water. The rugs should be turned every 6 months for maintenance purposes.

WAVE TRAY

"We sought for the Wave Tray to bring a refined sentiment to the otherwise raw materiality of metal; something that we saw typically used in more industrial contexts. Through its organic form in stainless steel that is inspired by the undulations of a wave, from which the design also takes its name, the Wave Tray has a simple, graphic expression that, in pairing with its grander size, makes a true statement. With its unique shape and understated materiality, the Wave Tray brings elegant rhythm, subtle vibrations and a graphic character into everyday life."

Description	The Wave Tray brings a refined sentiment to the otherwise raw materiality of metal. Through its organic form that has been shaped in stainless steel, the expression is inspired by the undulations of a wave. The Wave Tray has a simple yet graphic expression that, paired with its grand sizes, makes a true statement in any setting.
Material	Stainless steel
Cleaning & Care	Clean the surface with a lint-free cloth wrung in lukewarm water and a mild detergent. Wipe the surface with a dry lint-free cloth. Stubborn stains and rust may be removed by carefully cleaning it with a light-abrasive cleaner that is suitable for stainless steel and by only following the lines in the material and never in circles, as this can cause scratches to its surface. Please be aware that this process can change the original polishing finish of the surface.

Wooly is woven in 70% recycled wool, sourced from leftover materials of clothing production and other wool products. One kilo of pure new wool generates 9 kilograms of carbon dioxide when produced while processing one kilo of recycled wool only generates 0.5 kilograms of carbon dioxide. Furthermore, recycled wool has a positive environmental impact due to lessened water consumption and lower energy consumption.

GENERAL TERMS OF SALE AND DELIVERY

VALIDITY

These General Terms of Sale and Delivery shall supersede and suspend all previous agreements and shall apply to any agreement made between Muuto and the buyer unless otherwise agreed.

SALES AND MARKETING MATERIAL

Information supplied by Muuto regarding prices, models, dimensions, features, and specifications in catalogues, advertisements, sales or promotional literature, price lists or elsewhere is not legally binding and shall be considered for guidance only, and may be changed at any time without prior notice.

ORDERS

All orders placed by the buyer must be in writing and shall at the minimum specify the type (product number and/or name) and quantity of the products ordered as well as the requested date of delivery. The order is not binding upon Muuto unless and until Muuto has issued a written order confirmation to the buyer. Unless objections are made within 24 hours after receipt, the order confirmation is considered accepted by the buyer.

For customers on prepayment terms Muuto will start production of made-to-order products immediately when prepayment has been received.

PRICES

The present price list replaces all previous price lists and may be subject to changes at any time without prior notice. The purchase price for the products ordered by the buyer is stated in the order confirmation. Delivery and installation is not included in the purchase price. Unless otherwise agreed, quotations submitted by Muuto shall be valid and binding for 60 days after receipt.

DELIVERY

Unless otherwise agreed in writing, delivery shall be ex. works (Incoterms 2010) from the place designated by Muuto from time to time. If transportation of the products is handled by Muuto's forwarding agent on behalf of the buyer, Muuto will invoice the freight to the buyer. The products shall be sent using standard packaging. The confirmed delivery date is only an estimated delivery date and the time of delivery shall not be considered of essence. Muuto cannot be held liable for any damage or loss that the buyer may suffer as a result of a delay or a non-delivery. If no specific delivery date has been indicated in the order confirmation, Muuto, acting reasonably, is entitled to stipulate a delivery date taking into consideration the quantity and the nature of the products to be delivered.

The buyer is always obliged to inspect the products delivered upon receipt, i.e. checking that the correct type of products has been delivered, and checking that the correct quantity of the products has been delivered.

Should a delivery fail to meet the buyer's expectations, or is the delivery damaged during transportation, the buyer shall:

1. Inspect the entire delivery immediately.
2. Accept the delivery, but immediately note the damage on the freight documents by stating, "Received with reservation".
 1. If freight document does not allow for reservations, the buyer is expected to refuse the delivery.
3. Report the extent of the damages to Muuto according to the paragraph "Filing Complaints"

The buyer is deemed to have accepted the products delivered unless a claim has been filed within 5 working days upon receipt in accordance with the instructions in the paragraph "Filing Complaints".

PAYMENT AND RETENTION OF TITLE

Unless otherwise agreed, payment shall be made in accordance with the payment terms and conditions of payment indicated on the invoice and the order confirmation. All bank charges are the responsibility of the buyer. All products not paid for in the full, including interest and delivery (if any), shall remain the property of Muuto. The buyer shall at all times keep such products separated from any other products held in stock, and must ensure that the products can at all times be identified by Muuto. The buyer shall be liable to Muuto for any damage to the products until they have been paid for in full as stated above. There will be a penalty interest of 2% per month when payment is made after the due date. Such interest is payable without any further notice. Prepayment of proforma invoice is required for buyers without credit. The buyer must state account number as well as the proforma invoice number on the payment.

WARRANTY AND LIMITATION OF LIABILITY

Muuto offers a warranty against defects of manufacture and materials on standard products. The warranty listed in Muuto's current pricelist shall be valid from the date of delivery provided that the products are used under normal circumstances and maintained according to guidelines. Excluded from this warranty are all defects due to or caused by transport, incorrect use, inadequate maintenance, accidents, the buyer's alteration or repair as well as normal wear and tear of the products.

Natural variations in organic materials cannot be considered defects, and Muuto explicitly excludes itself from liability for any such variations. Muuto's warranty against defects of upholstery requires that such upholstery (fabric or leather) is included in the price list and is recommended by Muuto. Should the buyer wish to provide its own upholstery (fabric or leather), or should the buyer wish to itself process (whether by dyeing or otherwise) the upholstery provided by Muuto, Muuto's warranty lapses. Muuto cannot in any way be held responsible for materials delivered by the buyer, including the compliance of such materials with local law of the country or state to which they are delivered, irrespective of whether such materials have been upholstered or otherwise incorporated into Muuto's products by Muuto."

Unless otherwise stated in these General Terms of Sale and Delivery, Muuto is not liable to the buyer for loss of production, loss of use, loss of contracts, loss of profit or for any other consequential or indirect loss whatsoever.

Notwithstanding any other provisions of these General Terms of Sale and Delivery, Muuto's maximum liability in relation to the buyer can in no event exceed the purchase price for the products sold, including any liability for damages to a third party, such as, for example but not limited to, product liability.

PRODUCT LIABILITY

Mandatory product liability rules in force from time to time shall apply to disputes regarding product liability. Unless otherwise required by mandatory legislation, Muuto shall not be liable to the buyer for any damage or loss caused by the products, including but not limited to liability for loss of production, loss of use, loss of contracts, loss of profit or for any other consequential or indirect loss whatsoever.

REMEDIES

With respect to products that are defective, Muuto may choose to refund the purchase price for such products, repair such products or replace such products, always provided that it is a condition for such refund, repair or replacement that the buyer has notified Muuto about the defect within reasonable time after the buyer discovered or ought to have discovered it, and provided that such notice is given within the warranty period in accordance with the instructions in the below paragraph "Filing Complaints". Thus, Muuto is not obligated to replace customized or discontinued products.

The above remedies constitute the buyer's only remedies in respect of any defective products delivered under these General Terms of Sale and Delivery.

FILING COMPLAINTS

A complaint shall be filed by email within 5 days upon delivery and, for quality complaints, within the period of warranty.

Each complaint shall be filed in such a manner that the email describes in detail the problem at hand. Each complaint will be evaluated from the Muuto Claims Department provided that the following is stated and/or enclosed:

1. Delivery note/order confirmation number/invoice number
2. Clear description of the complaint in detail
3. Images of product, up close and from afar
 1. For transport damages: Images of boxes and labelling shall be enclosed by the buyer
 2. For quality complaints: Images of product specific PO-number shall be enclosed by the buyer

RETURN OF PRODUCTS

Returns are only accepted by prior written agreement. Return products shall be securely and properly packaged, and return order confirmation shall be placed visible on the package. Unless otherwise agreed, the buyer shall bear the transport cost and risk of any defective products returned to Muuto.

CHANGES IN DESIGN

Prior to delivery and without prior notice Muuto reserves the right to make any changes to a product's design that is found by Muuto to be necessary or appropriate.

FIRE-RETARDANCY

MUUTO products can be supplied with fire-retardant fabrics. As the regulations vary in each country, we advise all customers to check the respective local regulations. Any requests for fire-retardant treatment must be sent to MUUTO in written form, specifying which fire-retardant norm the products must comply with.

OTHER

The buyer is not allowed to sell the products to re-sellers without written approval by Muuto.

APPLICABLE LAW AND VENUE

The parties contractual relationship under these General Terms of Sale and Delivery shall be governed and construed by and shall be interpreted in accordance with Danish law, without regard to the United Nations' Convention of Contracts for the International Sale of Goods (CISG). Any dispute that may arise out of the parties' contractual relationship under these General Terms of Sale and Delivery or any related event, which cannot be settled amicably, shall at Muuto's request be brought before the Copenhagen City Court.

AMENDMENTS

Muuto is entitled to modify these General Terms of Sale and Delivery at any time. Muuto shall notify the buyer of such modifications and of the date of such modification. The buyer is deemed to have accepted the modifications unless written notice of rejection is given to Muuto within 10 working days after receipt of such notice.
